

SHI Mobile

Unlimited, multi-carrier LTE data plan

Get connected, stay connected,
wherever work takes you.

SHI Mobile offers unrivaled multi-carrier LTE data connectivity, ensuring fast and secure broadband or wired connectivity without the need to contract with and manage multiple carriers. By consolidating the connectivity needs of all your devices into a single contract using a single management platform, SHI Mobile keeps your employees connected and productive no matter where they are in the world.

How do we do it?

Using a single SIM or eSIM, SHI Mobile automatically selects the fastest and most reliable signal from more than 600 carriers across 120 countries worldwide.

Why choose SHI Mobile?

- One billing contract, one SIM or eSIM
- Unrivaled coverage and speed
- Fast, secure and cost-effective
- Global data plans for a seamless cross-carrier LTE experience

Access to LTE connectivity anytime, anywhere

By automatically connecting to the best tier-one mobile carriers' 3G, 4G and LTE networks in over 120 countries worldwide, SHI Mobile delivers uninterrupted connectivity regardless of your location.

Connect automatically to LTE

Using innovative technology, the SIM or eSIM intelligently connects any LTE-enabled device to the strongest signal, providing you with the strongest service.

Get the reach of a global carrier with the quality of a local network.

Use only whitelisted websites and apps

Ensure users are productive by allowing them to seamlessly connect to a pre-defined whitelist of acceptable websites and apps (and only those approved apps and service tools).

Experience a reliable and secure connection

Reduce financial and cyber exposure by keeping your data protected with enhanced security at the network level.

SHI Mobile offers a substantial upgrade over publicly-available Wi-Fi, leveraging the security afforded by local carriers.

SHI Mobile – Case Study

SHI Mobile helped a pharmaceutical company consolidate 90 carrier contracts into a single, unlimited global data plan.

A pharmaceutical company conducting clinical trials in 90 countries worldwide needed to capture on-site data points across 60+ carriers, requiring them to manage 90 carrier invoices. SHI Mobile eliminated the logistical headache of managing multiple contracts and gave them control over data consumption.

Common use cases for SHI Mobile

Frontline and field workers

- Provide real-time customer service
- Allow physicians to treat patients, even in the most remote locations
- Facilitate point-of-sale interactions

Engineers

- Diagnose and fix problems on site

Super Users and Business Travelers

- Close deals and stay connected while on the road, even when traveling internationally

Limited Bandwidth Households

- Stop competing with other household members (yes, even the kids!) for home-network bandwidth

Educators and Students

- Enable access to learning from anywhere, even in remote and rural locations with limited bandwidth and unreliable network connectivity

Keep your workforce connected, even when they are not together.

To learn how SHI Mobile can help your organization stay connected and productive for as little as **\$35 per user/per month**, reach out to your SHI Account Executive today.
