

Microsoft Exchange On Premises to Microsoft 365 Migration

The Microsoft Exchange On Premises to Microsoft 365 migration securely enables organizations to seamlessly migrate messaging data from on premise to Microsoft 365 Exchange Online. Our experienced consultants and engineers will provide expert guidance on best practices and recommendations to ensure the migration is effortless for your organization.

During this 3- to 6-month engagement, our Microsoft experts will help you evaluate your current governance, processes, and procedures, along with architecting the design and migration plan in alignment with Microsoft 365 tools.

We will

- Assess your current environment
- Discover existing policies, processes, and practices
- Build your design document
- Discuss and implement policies and configurations
- Develop and plan your migration and go-live strategy
- Provide go live support through cutover

Deliverables

- End state design documentation
- Migration plan
- Knowledge transfer

Benefits

- Improved data integrity
- Certified expert consultants
- Regulatory compliance and security
- Optimized timeline for delivery
- Best practice migrations
- Knowledge transfer
