## How SPR helps secure cybersecurity funding

On September 16, 2022, the Department of Homeland Security (DHS) released guidance on the \$1B State and Local Cybersecurity Grant Program (SLGCP). Applications from state governments and territories require 80% of funds to be used to support local entities. States are required to establish a cybersecurity planning committee and develop a cybersecurity plan, addressing 16 elements cited in the IIJA. SHI's SPR process is aligned to the IIJA cybersecurity plan requirements necessary to be eligible for the SLGCP.

Our SHI Cybersecurity and Grants Teams are available to begin your SPR immediately. Contact us at [grants@shi.com](mailto:grants@shi.com) to start now.
