

Windows OS Factory Provisioning

Powered by VMware Workspace ONE

Windows OS Factory Provisioning services on Workspace ONE empower you to evolve your onboarding experience for hybrid workers using Windows devices.

Our high-capacity Integration Centers and over-the-air provisioning services deliver thousands of devices to employees, educators, and students, all ready to go with the right configuration, apps, and privileges from the moment they're powered on.

SHI's Windows OS Factory Provisioning services enable you to:

Strategize

- Address key business objectives
- Evaluate your digital transformation, powered by Workspace ONE

Evaluate and select

- Gain hands-on experience with Workspace ONE via product demos and VMware Test Drive
- Utilize our buying program and price modeling expertise

Design

- Scope a solution for your unique use cases with SHI's Workspace ONE Solution Architects

Deploy

- Leverage SHI's relationships with industry-leading endpoint management vendors
- Ship pre-configured PCs directly to customers or end users with SHI's Integration Centers

Procure

- Take advantage of custom e-commerce, financing, and leasing options, as well as contracts support

Support

- Simplify maintenance with white glove support
- Increase visibility with annual Workspace ONE health assessments
- Review your feature road map and get assistance with critical certificate expiry renewal

Benefits

- Onboard new employees quickly and seamlessly
- Ship pre-configured PCs directly to customers or end users
- Provide ready-to-work user experiences right out of the box
- Liberate internal resources by leveraging SHI's Integration Centers
- Provision Windows, applications, and settings and configure Domain Join profiles

Why SHI

- Digital Workspace Master Services Competency (MSC) certified
- Strong, decades-long partnership with VMware
- Work with our Workspace ONE pre-sales engineers and architects
- Leverage our licensing and Windows 10 and 11 experts
- Expertly deploy with service delivery engineers
- Maintain effectiveness with support services
