

# End-user devices

Redefine classrooms with immersive learning devices

School communities are diverse and need differentiated solutions to support staff and students. SHI's team of experts provides the personalized approach you need to select, procure, deploy, and manage end-user devices. We help you maximize your investment, ensuring you have the resources to support your evolving needs.

## Determine your drivers for change:

Leverage SHI's unrivaled vendor relationships to access best-in-class devices and software. No matter where you are in your device strategy, we can help you find the best solution to meet staff and student needs.

 **Improve resilience**

Equip your school community with devices that will help students reach learning goals and staff increase proficiency and performance. Because picking the right solutions is a crucial step, our experts are here to help you select the technology that best supports innovative teaching methods.

 **Manage strategically**

The SHI solutions and services team can streamline the entire lifecycle of end-user devices, so they're ready whenever you need them. From procurement to zero-touch provisioning to device management to retirement, we can make sure your faculty and students have a seamless experience with your technology.

 **Optimize cost**

Through SHI's vast partner network, we can provide you with options for competitive pricing, warranties, licensing, accidental damage protection, and white glove services. Our team helps you maximize your investment, so you can concentrate on supporting end users.

### End-user devices include:
