

Mergers-and-Acquisitions-as-a-Service

Hit the ground running with effective IT consolidation.

Technology integration is a vital but challenging aspect of any merger or acquisition. SHI's experts ease the transition to your business' exciting new chapter by helping you tackle your most critical technology priorities – from licensing, tenant, and data center consolidation to platform migrations, asset management, and identifying workload duplications.

Our integration specialists will:

- Help you craft a bespoke IT consolidation plan catered to your unique environment
- Gather information on policies, processes, and governance to bridge your people, cultures, and technologies
- Provide guidance and assistance on licensing agreement consolidation and new operating models
- Aid your M&A transition with seamless data and content migration

Why SHI for M&A technology consolidation?

With help from our experts, it's easy to gain a clear view into the actions you need to take to achieve your desired technology end state. We work with you to make informed decisions that will help position your newly merged organization as a frontrunner within your industry.

With SHI MAaaS, you gain:

- Access to certified consultants
- Actionable recommendations based on industry best practices
- Flexible project management
- Fast execution
- License transfer facilitation
- A standardized playbook
- The ability to leverage our "pay as you use" procurement model
