Grant Support Program

Get optimal funding to solve what's next for your organization.

The federal government is releasing record levels of funding assistance through new laws and stimulus initiatives, enabling expanded government, education, and healthcare IT transformation across the United States.

Unfortunately, many organizations who stand to benefit don't know about available grants and funding opportunities or how they can be used to support their technology projects. Even then, once a grant or funding opportunity is identified, how does an organization put together a winning proposal?

Luckily, SHI can help. Through our Grant Support Program, we provide complimentary consultative services to help you find and secure technology grant and funding opportunities. Additionally, we'll provide customized grant prospect reports. Our team of grants experts is always available to serve as a value-added resource to help you achieve all your technology goals.

Eligible organizations for grants support

- State and local governments
- Law enforcement and public safety entities
- K-12 schools and districts
- Higher education institutions
- Hospitals and healthcare systems
- Tribal entities

How the program works

1. Request assistance through SHI's Grant Support Program.
2. Connect with a grants specialist to identify your funding needs.
3. Receive a full report on which grants are right for you.
4. Consult with a specialist regarding grant applications.

Find grants right for you
With knowledge of over 5,000 grant programs and $500 billion in funding each year, we can provide insight into which opportunities are best for financing your specific technology initiatives and projects.

Get expert advice on applications
Consult with a grants expert that will help develop project ideas, get technology-rich projects funded (such as next-generation data center and cybersecurity), and even expand initiatives that are already in the works.

Meet technology standards and requirements
Strengthen your applications and make sure you meet requirements for your funding requests with SHI's expert consultant services.

Discover grant and funding opportunities to procure the technology your organization needs.
