

Google Workspace to Microsoft 365 tenant migration

It's a simple shift—with SHI!

The **Google Workspace to Microsoft 365 tenant migration** ensures your organization transfers data seamlessly and securely from one tenant to another. SHI's experienced consultants and engineers are driven by best practices, ensuring the migration is effortless.

During this 1- to 6-month engagement, our team will evaluate your governance, processes, and procedures, and design a tailored migration plan using Microsoft 365 tools.

SHI's experts will:

- Discover existing policies, processes, and practices.
- Plan the migration of all workloads.
- Build a design document.
- Discuss, then implement policies and configurations.
- Develop and plan a migration and go-live strategy.
- Migrate you to M365 workstream data.
- Provide go-live support through cutover.

Benefits:

- Improved data integrity
- Certified expert consultants
- Regulatory compliance and security
- Optimized timeline for delivery
- Best practices for migrations

Deliverables:

- Design documentation
- Migration plan
- Knowledge transfer

Contact your **SHI Account Executive** today to discover how we can support your migration needs.
