

Microsoft 365 Power Platform Deployment

The **SHI Power Platform Deployment** is designed to help you deploy Power Apps, Power Automate, and Power BI solutions to Microsoft 365.

During this customized engagement, our Microsoft Power Platform consultants will evaluate your current forms, workflow and reporting solutions, and help you plan your journey to the Microsoft 365 Power Platform.

We will:

- Provide guidance on Power Platform governance, security, and adoption
- Deploy the Power Platform Center of Excellence to your Microsoft 365 environment
- Help you start your first Power Platform solution or assist in moving to the Power Platform
- Develop custom forms and applications with Power Apps
- Use Power Automate to automate organizational processes
- Leverage Power BI to create interactive, immersive dashboards and reports for business insights
- Provide best practices for deploying solutions on the Power Platform
- Provide business process deployment and conversion approaches
- Convert existing forms, workflows, and reports to the Power Platform

Benefits of Power Platform

Deployment

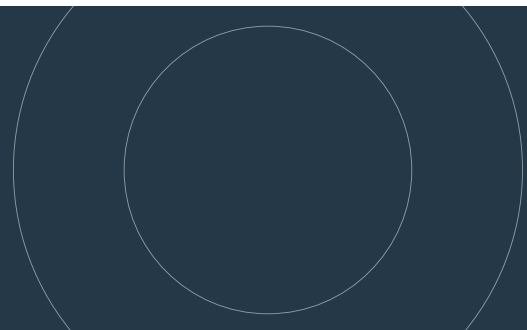

- Improve employee productivity and collaboration
- Make informed, confident business decisions
- Build custom apps that solve business challenges
- Deliver solutions with greater efficiency, security and compliance
- Gain a better understanding of the business capabilities of the Power Platform
- Modernize business process automation on the Power Platform

Deliverables

- Planning sessions
- Power Platform Center of Excellence
- Environment configuration
- Power Apps, Power Automate, and Power BI deployments and conversions
