

Microsoft 365 Maximization Workshop

Unlock hidden value, optimize costs,
and boost productivity

Are you grappling to understand Microsoft 365 license entitlements or keep up with the ever-expanding feature set? Are underutilized licenses or redundant third-party tools draining your budget?

SHI's Microsoft 365 Maximization Workshop is designed to address these pain points and transform your Microsoft experience. Our Microsoft-certified experts dive deep into your specific worker needs and usage patterns to identify hidden opportunities for optimization and innovation.

We will:

- Align your Microsoft 365 licensing with your organizational goals and user needs.
- Optimize your purchasing model for maximum cost efficiency.
- Uncover overlooked features that can revolutionize your workflows, including:
 - Microsoft Loop and Visio for dynamic collaboration.
 - Teams Phone, Town Halls, and webinars for seamless communication.
 - Microsoft Planner, Forms, and Delve for streamlined task management.
 - Microsoft Defender, Azure Information Protection, and other advanced security features for robust protection.
 - eDiscovery, Audit and Litigation hold, and compliance settings for regulatory peace of mind.
 - Power Apps, Power Automate, and Copilot for Teams to automate processes and boost efficiency.

Benefits

- Eliminate duplicate third-party applications for streamlined workflows and reduced IT complexity.
- Boost productivity and creativity through improved feature adoption and process automation.
- Get enhanced security features built directly into Microsoft 365.
- Maximize ROI and achieve cost savings by optimizing your licensing and eliminating unnecessary expenses.

Deliverables

- Customized roadmap and plan to maximize your Microsoft 365 entitlements.
- Potential cost savings analysis by identifying underutilized licenses and eliminating redundant tools.
- Optional executive summary for leadership buy-in.
- Follow-up discussions with services experts and SMEs for feature deployment planning.

Don't let licensing challenges and untapped potential hold you back.
