

CloudSuite Advisory

A feature-by-feature analysis of Microsoft 365 and Google Workspace

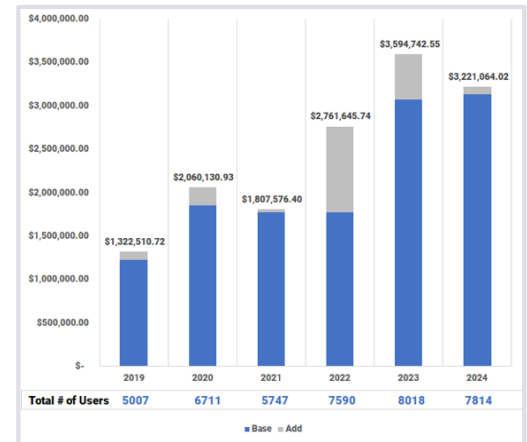

Can this migration reduce my costs? How can I ensure my business requirements are met? After migrating, do I need to keep any previous technology?

Are you considering moving from Microsoft 365 (M365) to Google Workspace? This is a significant transition, as there's no simple, 1:1 conversion between Microsoft and Google. Determining the viability of such a shift requires diligence and in-depth knowledge of Microsoft and Google licensing.

We're here to address your concerns and help determine your best path forward with our 30-day consultation.

We'll take an **unbiased** approach to comparing the features of your existing Microsoft ecosystem with **Google Workspace**, **Chrome Enterprise**, and **ChromeOS**. We'll then provide detailed pricing options and recommendations with your current and future technology needs in mind.

Our experts provide the critical analysis needed to move forward with confidence. We will:

- **Deconstruct** the M365 licensing model and assess your current and future usage.
- **Measure** the current value of your M365 suite.
- **Compare** current usage and value with Google Workspace bundles.
- **Create** multiple licensing options based on business needs.
- **Identify** technology gaps in a Microsoft-to-Google migration and suggest solutions to close those gaps.
- **Recommend** next steps including negotiation tips.

Enterprise Workers				
Google Enterprise Plus	Sub	6,764	\$ 17.51	\$ 210.09
Google Voice	Sub	300	\$ 10.00	\$ 120.00
Chrome Enterprise Premium	Sub	6,764	\$ 3.00	\$ 36.00
Windows E3 per User (EA)	Sub	6,764	\$ 5.13	\$ 61.56
Excel (MPSA)	L&SA	1,425	\$ 9.23	\$ 110.70
Windows Server CAL User (MPSA)	L&SA	6,764	\$ 1.72	\$ 20.68
SCCM per User (MPSA)	L&SA	6,764	\$ 2.04	\$ 24.42
M365 E3 Orig FSA	From SA	0	\$ 27.85	\$ 334.20
M365 E3 Orig FUSL Exist Cust	Sub	0	\$ 32.77	\$ 393.24
Frontline Profile				
Google Frontline Standard	Sub	363	\$ 6.19	\$ 74.33
