

Network device activation services

Effortless activations of 4G/LTE and
5G devices.

Your teams need to perform — anytime, anywhere.

Whether they're working remotely without Wi-Fi or operating from vehicles that require secure connectivity, reliable network devices are essential. Choosing the right equipment is the easy part. The real challenge lies in activating and deploying it at scale.

For IT teams, the process of configuring, activating, and ensuring each device is ready for use can be a logistical nightmare. It's time-consuming and stressful, pulling valuable resources away from strategic initiatives that drive your business forward.

Seamless activation for network devices

Your teams rely on durable network devices built for extreme conditions — whether in remote locations or harsh environments. The only barrier? Activation.

SHI ensures your devices are properly activated and ready to perform. From shock-resistant and waterproof models to vehicle-mounted solutions, we tailor activation to meet your unique business needs. Our scalable approach streamlines deployment, keeping your organization running efficiently.

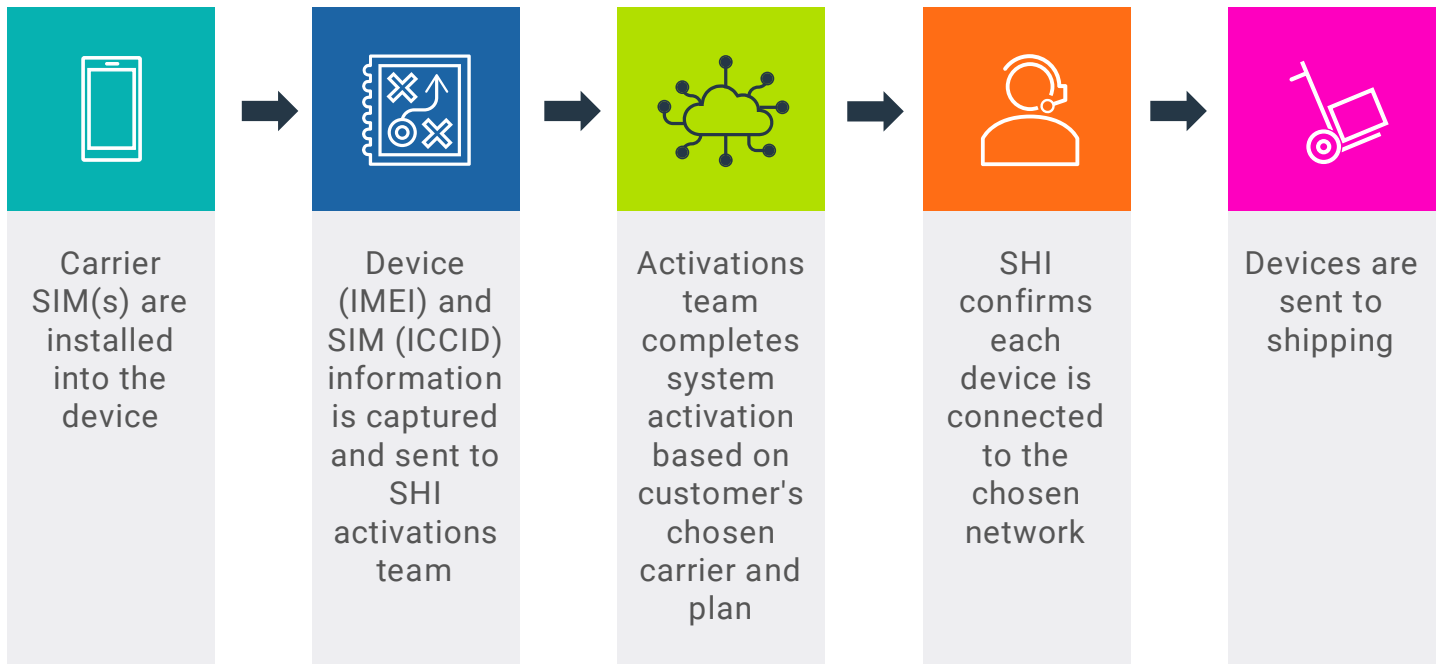

Network device activation benefits:

- **Seamless deployment:** Simplify activations with global, multi-carrier support.
- **Efficient IT operations:** Outsource repetitive tasks to free up resources.
- **Faster rollouts:** Speed up deployment and get devices online quickly.
- **Expert guidance:** Vendor-neutral specialists ensure the best fit.
- **Hassle-free support:** SHI manages provider troubleshooting.
- **Cost savings:** Streamlined activation reduces expenses.

The activation process:

Let SHI's experts take the challenge out of activating your devices.

Device activations should not be a burden for your IT team.
Speak with **our experts** to simplify the process today.
