

AWS Landing Zone Accelerator

Scale innovation without sacrificing trust.

Is your AWS environment designed to scale securely?

In today's market, speed and security aren't optional – they're core drivers of competitive advantage. AWS supports these business imperatives with their Landing Zone Accelerator, delivering a compliant, automated cloud environment from day one.

SHI takes that foundation and hardens it with enterprise-grade cybersecurity, governance, and 24/7 oversight. Together, we deliver what CISOs and boards expect: a secure, scalable cloud that accelerates innovation without compromising trust. This isn't just migration – it's building the future of your business with confidence.

Key benefits

Accelerated, compliant AWS environment

SHI's AWS Landing Zone Accelerator Services deliver a preconfigured, automated AWS environment aligned to AWS best practices. You reduce time to value while establishing a secure, scalable, and compliant cloud architecture from day one.

Secure, multi-account architecture aligned to standards

Gain a standardized AWS Landing Zone aligned to CIS, NIST, PCI DSS, HIPAA, and internal policies. Built-in governance and security controls help ensure consistent enforcement across accounts as cloud adoption scales.

Embedded security and governance from the start

Zero trust principles, advanced threat prevention, and FinOps governance are embedded into ongoing operations, not added after deployment. Security and cost controls are applied continuously.

Centralized visibility and continuous protection

SHI One consolidates insights for finance, procurement, and IT teams, providing a unified operational view. Ongoing monitoring, managed detection and response (MDR), and 24/7 SOC enable proactive threat defense and faster issue response.

Operationalize AWS landing zones at enterprise scale with SHI

Whether you're starting your cloud journey or scaling advanced workloads, SHI and AWS deliver the expertise you need.

Our Cloud Governance Framework and 300+ AWS certifications ensure secure, cost-optimized environments.

AWS offers the most secure and reliable cloud platform with 200+ services worldwide – combined with SHI's customer-first approach to simplify billing, manage assets, and drive innovation.

AWS Landing Zone Accelerator

Scale innovation without sacrificing trust.

Delivery methodology

Assessment

Discover current configuration opportunities and gaps

Review cloud-native resource usage through automated AWS discovery with gap analysis against best practices and regulatory requirements.

Design

Define custom baselines and prescriptive policy

Design a secure, tailored AWS Landing Zone across multiple accounts with embedded SHI cybersecurity controls.

Monitor

Automate compliance and ongoing analysis

Leverage drift monitoring and continuous evaluation to ensure the desired state.

Report

Receive detailed resource and findings reports

Increase visibility across resources, configurations, security, and compliance issues.

Optimize

Evaluate and optimize continuously

Gain confidence in your current state and next steps through centralized visibility with SHI One, continuous monitoring, MDR, and 24/7 SOC support.

Accelerate your cloud journey.
